

Mock EJK Award Medallion

Print out the Medallion and add in your school or group name in the curved area at the top for displays or social media. Instructions on how to center the name of your school or group on the medallion can be found on page two. You may want to practice in pencil a few times, before moving on to using a magic marker or sharpie.

EJK Mock Medallion

How to Center the Name of Your School on the MOCK EJK Medallion.

1. Print out a test copy of the Mock Medallion, no smaller than six inches in diameter.
2. Measure the height of the lettering of the "Mock EJK Award".
3. Draw straight guidelines the same height as the Mock lettering on another piece of paper.
4. Write the name of your school in CAPS using the guidelines to establish consistent height for all letters.
5. With a ruler, find the letter closest to the center of the entire length of the name of your school.
6. In pencil, write that letter, the same size as in the test copy, directly above Peter's nose in the white circle provided.
7. From the center, complete the name of the school moving to the right.
8. From the center, complete the name of the school, spelling backwards, moving to the left.
